Degree/Certificate	Institute/Board	CGPA/Percentage	Year
BSc (Hons)	Indian Institute of Technology, Guwahati	7.53 (Current)	2023-Present
Senior Secondary	Board of Intermediate Education, Andhra Pradesh	90.0%	2021
Secondary	Board of secondary Education, Andhra Pradesh	93.0%	2019

EXPERIENCE

- Unified Mentor | Data Science Intern** 2026 - Present
 - Developed interactive analytics dashboards using Python, Pandas, Streamlit, Matplotlib, and Plotly
 - Built Banking Customer Retention and Nassau Candy Shipping Analytics dashboards to analyze KPIs, churn, shipping cost, order trends, and business performance
- Micro Information Technology Services| AI/ML Intern** 2025
 - Developed an NLP Sentiment Analysis project to classify text into positive, negative, and neutral sentiments
 - Used NLTK, TextBlob, Scikit-learn, and Streamlit for text preprocessing, model prediction, and real-time web interface projects

PROJECTS

- AI Shopping Assistant | LangChain, Groq API, SQLite, Streamlit** 2026
GenAI&Agentic AI Project
 - Developed an AI-powered shopping assistant supporting product search, image-based queries, review lookup, and checkout simulation.
 - Built an agentic workflow using LangChain, Groq API, and SQLite to generate personalized product recommendations.
- AI Medicine Safety Assistant | Python, Streamlit, OCR, AI Summary** 2026
Healthcare AI Awareness Project
 - Built an AI Medicine Safety Assistant using Streamlit to search medicine details and explain uses, precautions, and safety notes in simple language.
 - Integrated OCR prescription reading, AI summary generation, and report creation to support healthcare awareness.
- Multi-Agent AI Career Assistant | CrewAI, Groq API, Streamlit** 2026
Agentic AI Career Guidance System
 - Designed a multi-agent career assistant to analyze resumes, match job descriptions, identify skill gaps, and generate interview guidance.
 - Created specialized agents for resume analysis, job matching, skill planning, and LinkedIn content generation using CrewAI.
- LinkedIn Post Generator | LangChain, Groq API, Streamlit** 2025
GenAI Content Automation Project
 - Developed an NLP-based sentiment classification system to predict positive, negative, and neutral text sentiment.
 - Implemented text preprocessing, feature extraction, model prediction, and a real-time Streamlit web interface.

TECHNICAL SKILLS

- Programming:** Python, SQL, Java, C, C++
- Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Plotly, Excel
- Machine Learning & NLP:** Scikit-learn, NLTK, TextBlob, Classification, Regression, Text Preprocessing, Sentiment Analysis, Model Evaluation
- Generative AI:** LLM Basics, Prompt Engineering, RAG Basics, LangChain, CrewAI, Groq API
- Databases:** MySQL, SQLite
- Tools & Deployment:** Streamlit, Jupyter Notebook, Google Colab, Git, GitHub, VS Code

KEY COURSE TAKEN

- Mathematics :** Linear Algebra, Probability, Statistics, Multivariable Calculus
- Computer Science:** Introduction to Computing, Data Structures and Algorithms, Recommendation System Design Using Deep Learning, Pattern Recognition and Machine Learning
- Online MOOCs (Coursera):** Machine Learning, Deep Learning, Sequence Models, Convolutional Neural Networks, Generative AI with Lang chain and Hugging face, Data Analysis with Python, Prompt Engineering
